

Trend Micro™

Internet Security

Smart Protection for Your Family

With Trend Micro Internet Security, you can enjoy maximum protection without slowing down your computer. Get easy-to-use, proven security that guards you and your family from cybercriminals and inappropriate content on a 24x7 basis.

Surf the Web with Confidence

With easy-to-use security features, Trend Micro Internet Security protects your personal information when you email or surf the web:

- 20% smaller file size, 20% faster scan time
- Detects and removes viruses, spyware, and other malicious threats from your computer, email, instant messages, and downloads
- Proven leadership in anti-spam technology, including email and image spam
- Finds and blocks untrustworthy links in email and instant messages
- Stops websites from installing dangerous downloads on your computer
- Quick Scan allows you to quickly find and remove most malware when you are running short on time.

Protect Your Children Online

Enhanced parental controls help you to protect your children from inappropriate content when they go online.

- Block websites with inappropriate content based on specific categories
- Choose when and for how long your children are allowed to go online
- Monitor online activity reports to fine-tune your controls if necessary

Surf the Web Safely

Protects against web threats

Steer clear of online phishing scams that try to steal your credit card or bank account numbers. Continuous updates identify the newest risky websites.

Secure Web surfing

Find and block malicious or untrustworthy hyperlinks in email, websites, or instant messages.

Blocks image spam

Stop seeing spam that tries to evade filters by delivering images instead of just text.

Device Access Control

Automatically prevent suspicious software on USB devices from opening.

Experience smart security features tailored to your activities

Trend Micro Internet Security safeguards your computer and personal information against the latest threats:

- Prevent unauthorised software from changing your critical applications, without impacting your PC performance
- Pause security updates or scans when you give presentations, watch movies, or play games
- Automatically prevent suspicious software on USB devices from opening.
- Helps you to easily manage all the devices connected to your home network
